PROFILE

Seventh-term Aeronautical Manufacturing Engineering student with a technical background in Mechatronics. Experience in mechanical design (CAD/CAM), manufacturing, automation, and multidisciplinary projects. Interested in pursuing professional growth within the aerospace industry in mechanical design, manufacturing, automation, and programming. Demonstrates initiative, rapid learning, and scientific thinking when solving engineering problems. Seeking to continue developing technical capabilities while contributing to the design, analysis, and improvement of solutions for aerospace applications.

EXPERIENCE

Integrative Project. Aeronautical Manufacturing Engineering.

El Marqués, Qro.

Horizon Fixture. Self-centering fixture for aeronautical bushings. Jul. 2026

- Parametric design in SolidWorks of a self-centering mechanism for clamping and positioning aeronautical bushings, using three radial supports and a pinion-and-gear system.
- Developed parts, assembly, and engineering drawings with consideration for manufacturability and interference checking, followed by FDM fabrication and functional validation of the prototype.

Graduation Project. Mechatronics Technician

Corregidora, Qro.

Automated paint mixing system. Jul. 2023

- Designed and integrated an automated paint mixing system with solenoid valves, sensors, and an automatic gripper, including PIC18F4550 microcontroller programming, electronic circuit design, and electrical/control integration.

NASA Space Apps Challenge.

El Marqués, Qro.

Interactive air-quality map and asteroid impact simulator. Sep. 2024 – Sep. 2025

- Developed interactive tools for visualization and data analysis, including a historical air-quality map for Querétaro and a visual simulator of real asteroid impacts and their effects on Earth.

TECHNICAL SKILLS

- SolidWorks (CSWA/CSWP certifications). Sep 2023-2026.
- Fusion 360, CAD modeling, CAM, and CNC programming. Jan. 2026-2026.
- Engineering drawing interpretation and preparation, and GD&T. Sep. 2024-2026.
- Python, HTML, CSS, JavaScript, Git/GitHub. Mar. 2024-2026.
- Electronics, circuit design, sensor integration, and data acquisition. May 2020-2026.
- English B1+

EDUCATION

UNIVERSIDAD AERONÁUTICA DE QUÉRETARO.

- **Aeronautical Manufacturing Engineering. (7th term/12).** El Marqués, Qro. Sep. 2024-Present.

CENTRO DE BACHILLERATO TECNOLÓGICO INDUSTRIAL Y DE SERVICIOS.

- **Mechatronics Technician.** Corregidora, Qro. Jul. 2020-Jul. 2023.
-
